

OC700 Training Certification

Item	Initials
1. I have completely read and fully understood the OC700 operation manual. Any points not understood have been explained to my complete satisfaction.	
2. I understand that the OC700 must only be used in strict accordance with the operations manual.	
3. I understand that it is essential that the room size and treatment time be carefully selected on the OC700 control panel and that selecting a larger room size or longer time than is necessary will not provide any additional benefit.	
4. I have read and fully understand Guidance Note EH38 issued by the UK Health & Safety Executive regarding the use of Ozone. Any points not understood have been fully explained to my complete satisfaction.	
5. I understand that accidental exposure to high concentrations of Ozone can exacerbate respiratory diseases, and aggravate asthma conditions. I understand that medical help should immediately be sought in the event of accidental exposure to high concentrations of Ozone	
6. I understand that the OC700 is capable of producing high concentrations of Ozone and that any room or space to be treated must be <u>unoccupied throughout the entirety of the treatment cycle.</u>	
7. I understand that all animals, pets, etc must be removed from the room throughout the entirety of the treatment cycle. Fish Tanks and Aquariums must also be removed or covered over.	
8. I understand that plants and flowers must be removed from the room throughout the entirety of the treatment cycle	
9. I understand that Ozone will attack natural rubber, and that items made from natural rubber must either be removed from the room during treatment, or protected by a covering of silicone spray or a thin coat of petroleum jelly.	
10. I understand that it is essential to prevent accidental access to the area being treated for the duration of the treatment cycle. Accordingly, I understand that rooms should be locked to prevent access during treatment, and that a sign must be affixed to the entrance door(s) warning against entry, showing clearly when the treatment started, when the treatment is due to finish, and who is responsible for the use of the OC700	
11. I understand that the OC700 user Manual provides clear instruction regarding periodic maintenance every 500 hours use. I understand that aside from these instructions there are no other user serviceable parts within the system.	
12. I understand that if there is any doubt about the safe or correct operation of the OC1500, I should contact Oxytise PiD for <u>guidance before</u> using the system.	
13. I understand that each user of the OC700 must be trained and certificated by Oxytise PiD representative. I understand that use of the OC700 by an untrained person may be dangerous and will invalidate any warranty.
